It is the result of a thorough and rigorous award process, underpinned by research-backed and anonymous employee experience surveys in key areas.

"It's great to see so many examples of organisations making their workplaces truly 'great'. Huge congratulations to Colmore Partners for making one of our most prestigious lists."

Great Place to Work® has been listening to employee voices for over 40 years to determine what makes a truly great place to work. It administered a research-backed

Trust Index© employee survey and analysed the responses of UK-based financial services and insurance employees to determine the Best Workplaces™ list.

Surveys asked employees to comment on how their company supports work-life balance, sense of fulfilment, job satisfaction, psychological safety and financial security. Evaluations also included an assessment of how well the organisation was able to deliver a consistent employee experience across all departments and seniority levels.
